Students display art achievements

By AL BRIDGEMAN

The Rensselaer Central High School fine arts department will again hold its annual fine arts weekend on May 21-23. This is a chance for all art, choral and band students to display their achievements from the 1981-82 school year.

On Friday, May 21, the exhibit will be open from 8 a.m. until 3:15 p.m. for local school visits. It will re-open that evening at 6 p.m. and close at 9 p.m. At that time the public is invited to attend and the admission is free.

On Saturday, May 22, the public is invited to attend between 6 p.m. and 9 p.m. in the evening. On Sunday, May 23, it will remain open from 11 a.m. and close at 5 p.m.

The coordinator of the art show is Roger Beehler, art director at RCHS. According to him, there will be over 1500 pieces of art work displayed at the show, a choral presentation and a performance by the RCHS concert band on Sunday at 2 p.m.

Also this year former art students from RCHS will be allowed to exhibit some of their art work completed after graduation. Also being displayed will be works done by the industrial arts students and the home economics department.

Seniors who are art students are bringing in their works of over the past years. This is being done to show the public the improvement of each student while he or she was at RCHS.

"The people of Rensselaer would be amazed at the types of art work that the students at RCHS do. People should try and come out. They could spend their weekend a little differently for a change," Beehler said of the show.

The show will be judged and prizes will be awarded. The judges inspecting works done by freshmen, sophomores, and juniors are former art students of RCHS. Senior work will be judged by the Jasper County Art League.

Ribbons will be awarded for first, second, third and honorable mention positions will be awarded for each category. The categories are painting, sculpture, ceramics, drawing, watercolor and crafts.

Two special awards will be given to two special works of art. The Judges Award will be given to the student chosen by the judges whose one art project is picked as the best of the show. Then during the weekend people visiting the art show will cast ballots for the People's Choice award. The projects receiving the most votes will be awarded the prize.

News briefs...

Freshmen win Superstars Day

Tuesday, May 18, the spirit competition between classes came to a climax in the 1982 edition of Superstars Day. Competition was stiff as the reward for winning the year long spirit contest is a free day off from school.

Events included softball, skateboard slalom (which involved skating against the clock with added times of one guy and one girl added to the lowest total), stilt walking, pool relay (four teams competing in putting on clothes in the swimming pool, swims to the other side and takes them off), tug-o-war, bicycle race, three-wheeler race (driver is blindfolded and is verbally guided through the pylon course by his helper in the basket behind), water balloon toss, running relay, obstacle course and the eating contest in whic one guy and one girl per class stuffed as much spaghetti in their mouths using no hands.

These 11 events were crammed into a two-hour period which made for an action-packed afternoon. Winning the free day for 1982 were the freshman.

Mothers' Tea held

On April 29, the Sunshine Society honored their mothers in their annual Mother's Tea. After dessert was over the society members with their mothers proceeded to the auditorium where the entertainment and officer initiation took place.

After reciting the creed, Stephanie Schaltenbrand sang the traditional Sunshine themes, "My Sunshine Girl", and "My Task".

The mixed swing choir, "Celebrate" provided entertainment singing "One" and "Corner of the Sky".

The evening went on with the officer initiation in which the old initiated the new. Newly-elected officers are president Patrice Morris, vice-president Maureen Groppe, corresponding secretary Barb Baumann, recording secretary Kim Holt, treasurer Diane Meyers and historians Missy Moore and Carla Gonzales.

The evening wrapped up with games and door prizes.

King, queen named

This year's junior-senior prom king and queen were Sue Gehring and Mark Skinner. Their court consisted of Tarie Yeoman, Kim Rose, Ruth Dobson, Sherri Olson, Craig Jackson, Tim Nagel, Dennis Markward and Joe Grant.

Principal addresses seniors

The Class of 1982 of Rensselaer Central High School has enjoyed honor, success, and has brought credit to themselves, their school, families, and community. It is with mixed emotions that I bid you farewell as students in the halls of RCHS.

As you graduate from Rensselaer Central High School, I trust that you'll further your education in technical, vocational, or academic schools. Today's work force is demanding top quality skills and knowledge. The job competition is fierce. You must be totally prepared to meet the many challenges that will confront you. Please learn to work and cooperate with people. You will find success through understanding, patience, and unselfishly contributing toward your country and fellow man.

The Class of 1982 shall be remembered as the class that began their high school careers very separated and disgruntled with each other. It is a pleasure to announce that this class came together and matured very noticeably! You have set standards that will be followed in future years at RCHS. You have provided leadership in music, art, speech, school plays, student government, and athletics that brought honor to yourself and your school. I feel that this class never reached its full scholastic potential, but as it matured through high school, its' members will blossom and reach that full potential in the very near future.

It has been my pleasure to have been associated with each member of the Class of 1982. May you find success and happiness in your future. Rensselaer Central High School is very proud of the Class of 1982!

MAY GOD BLESS YOU AND BE WITH YOU ALWAYS!!

Sincerely,
Robert D. Crowe

Senior spotlight

Brunton involved in club activities

By PAULA IVEY

This year's final male spotlight senior is Steve Brunton. He is also one of Rensselaer Central's busiest students. Steve has been involved in many clubs. In speech club, he was vice president in his sophomore year and president his junior year. Brunton says, "I think the people in our speech club have a lot of talent. Most other schools have daily speech classes, but when we go to a speech meet we have only one after school practice and we still place high."

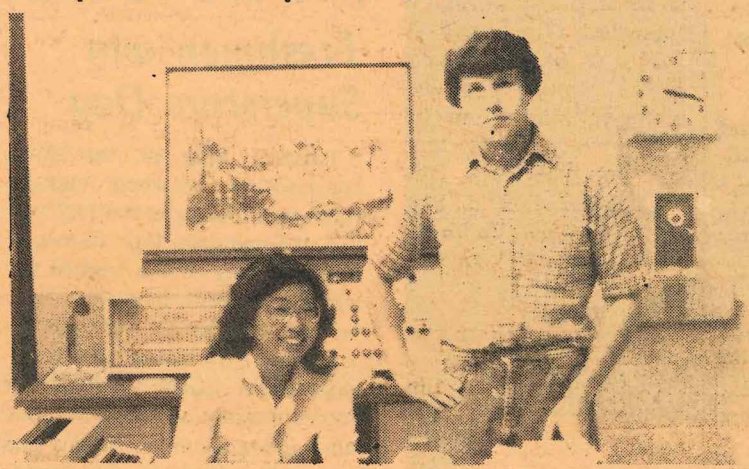
Brunton is also editor of the **Rensselaerien**. "There's a lot of time put into the publishing of the **Rensselaerien**. Having to take on more responsibility helps me see things from a new prospective."

Besides being the editor of the paper, Brunton is busy with his other classes, art, college prep. English, choir, sociology, international relations, government, economics and journalism. "Journalism keeps me very busy. I've also learned much in choir. Singing involves more than one would think." As for international relations, I've found that very challenging, especially doing three research papers in one semester."

Besides clubs and regular classes, Brunton has been involved in the fall plays **Miracle Worker, Flowers for Algernon** and **Home Sweet Homicide**. He performed in three musicals, **Li'l Abner, South Pacific** and **Guys and Dolls**. "I think I enjoyed **Li'l Abner** the most because I had a fun part I could do a lot with."

This fall Brunton plans to attend DePauw University in Greencastle. "I was impressed when I visited last fall. I chose that school because it has a major in creative writing. Most schools don't have this." Steve plans to take political science, theater and religion.

As a senior, he said, "It's something I've looked forward to for a long time, but now that it's here it seems kind of strange. I've spent most all of my life in school and soon that will be over."



Senior Spots are Holly Hollerman and Steve Brunton

Senior spotlight

Hollerman has busy year but prepares for college

"It's been a very busy year, but it was fun and short," says senior Holly Hollerman of her last year in high school. However, Hollerman said that she is not sad about leaving high school. Why? Because "I'm looking forward to college," said Hollerman.

Hollerman will be attending Saint Joseph's College here in Rensselaer. "I'm going to it because it's a small school with personalized attention. It has a very good math and science department," stated Hollerman.

She said that she wants to major in either math/computer science or math/physics. Hollerman says that "afterwards I plan on getting a master's in specialized field of science."

Hollerman's senior classes include College Prep. English, senior government, chemistry II/medical biology, probability and statistics/calculus, and physics. She said that she enjoys Chemistry II, calculus, and physics, and expects them to be useful in college.

Hollerman has been in National Honor Society since she was a sophomore and is the vice-president this year. She is now in her second year of both Sunshine and Pep Club. This year she is also in Drama Club.

Hollerman also spent her freshman year in speech club, for which she served as treasurer, and her sophomore and junior years in Home Ec. Club, for which she spent one year as vice-president. "I did a lot of stuff for Sunshine, National Honor Society and Drama Club," she pointed out.

Hollerman also said that she has been a regular member of the math team and has gone to five contests which were all held at either Chesterton or Michigan City. She has participated in the science fair three times. As a sophomore, she won second place in Biology II and as a junior she won first place in physical science as a junior.

Hollerman has also received many honors. Two such honors are being put into Who's Who Among American High School Students and being voted Most Likely To Succeed by her classmates. She has also been among the top five of her class all through high school.

However, her biggest honor, she said, is being ranked as Valedictorian for the graduating class of 1982.

Editor's column

Apathy hits everywhere

How many have heard the word "apathy"? Its definition means the lack of concern or interest.

We always hear about low voter turnout during elections. In 1980, there were only 52.5% of all voters who voted. And in 1980, voters had three very distinct and different candidates to choose from; the independent John Anderson, the imcumbent Jimmy Carter, and the extremely conservative Ronald Reagan. It seems that many people, although they often are quick to point out governmental leaders' faults and complain, do not really care when it comes down to doing something that really counts. Voting is probably the main way Americans can show how they feel, yet there is consistantly a shockingly low turnout at the polls.

The apathy among students here at Rensselaer Central High school can also be described as being shocking. As I gathered information and quotations from people, I found it both shocking and sad at how many people did not know how they felt, did not care, or just did not wish to make their views and opinions known. Exclamations of "I don't know" or "I haven't really thought about it" were often heard when students were asked what they think about issues. Many who may have opinions and views are not afraid to express them casually but shy away from formally expressing themselves in a printed publication. People often do not want to bridge the gap between commonplace complaining or offhand remarks and actually doing something by letting what they think be printed. Others often say that they think they will seem stupid or foolish by expressing themselves. It would seem that what others might think of them is more important than what they DO think.

In the editorial of the last issue of the **Rensselaerien**, the school board meeting in which the snow policy change was discussed. At that meeting an extremely large number of parents showed up to express their displeasure with the old policy. These people made their opinions known, and those in charge of making decisions heeded to their will.

In our education, we are taught many things, including history, the study of the past. What we do not seem to be taught properly is the study of the present and making students aware of current events.

The **Rensselaerien** suggests that students get a chance to participate in a regularly scheduled discussion of current events. This could best be done by having some teachers of certain classes to hold a discussion for about a half an hour each week. Students would then get the chance to learn what is going on around them.
